Welcome to the Val de Bagnes !

Dear riders and companions,

It's with great pleasure that I welcome you to Verbier Val de Bagnes. We're delighted to welcome talent from all corners of Europe for this round of the European IXS Cup.

Verbier Val de Bagnes, with its breathtaking scenery and technical slopes, is the ideal setting for a competition of this scale. We are proud to be able to support this event, which will be an exceptional moment for all.

To all riders, I encourage you to give your best and enjoy every moment on our magnificent bikepark. May the competition be tough, but always in a spirit of fair play and camaraderie! A big thank you to the volunteers, organizers and everyone who helped make this event a success.

Nicolas Fillez

Promobike Verbier's President

Welcome to Verbier !

Verbier and its surrounding region are thrilled to be hosting the European MTB Downhill Cup this year. It's rewarding for everyone who's been involved in the development of the bike park, which, over the years, has established a great reputation for itself.

Our region offers not only downhill trails for mountain bikes, but also a multitude of touring possibilities for different types of riding, such as road biking, E-bike, enduro and cross-country. We look forward to sharing the thrills of the upcoming competition with you and enjoying a drink together during the event.

Laurent Vaucher

CEO Téléverbier SA

MTB in Verbier

Our area proposes **833 km of MTB tracks**. We offer: 500 km of cross-country trails, 108 km of all-mountain track including the Tour of Mont-Fort, a 178 km enduro itinerary and a 19 km downhill track.

The bikepark high season starts in **June** and runs to the end of **October**. We await your visit and hope to see you soon.

The racetrack is open throughout the season and is prepared in the same way as the European Cup. This is your chance to try your hand on a track that is as much appreciated as it is feared by the best racers.
